CTG National Secure Warehousing, Integration & Deployment Services

End-to-End Secure Logistics & Integration for Business-Critical Programs

CTG NATIONAL
Cohesive Technology Group

CTG National delivers a purpose-built, secure logistics and integration platform designed to support complex enterprise programs where control, compliance, and execution certainty are mandatory.

Our warehousing, integration, staging, and deployment services extend CTG's role well beyond a traditional value-added reseller. We provide clients with a single source for asset control, preparation, configuration, and delivery across the full program lifecycle.

OEM / Supplier → CTG Secure Integration Facility → Client / Deployment

What We Deliver

SECURE ASSET CONTROL
- Controlled access, monitored facilities
- End-to-end tracability and assett accountability
- Serialized asset tracking and reconciliation
- Compliance-ready documentation and records retention

INTEGRATION, STAGING & DEPLOYMENT READINESS

CTG transforms OEM equipment into deployment-ready systems before it reaches client environments—reducing site labor, minimizing installation errors, and accelerating enterprise rollouts.

- Custom packaging and repackaging
- Program-specific labeling and compliance marking
- Asset tagging, serialization, and UID support
- Configuration staging and localization
- Kit assembly by site, rack, or deployment wave
- Documentation alignment with client and OEM requirements

All activities are performed within CTG's controlled logistics environment, preserving asset integrity, tracability, and compliance from receipt through deployment.

TRANSPORTATION & DEPLOYMENT
- Small parcel, LTL, FTL, and white-glove delivery
- Scheduled, time-definite, and just-in-time fulfillment
- Carrier coordination and routing guide compliance
- Consolidated shipments by location or deployment wave
- Verified delivery and proof-of-delivery tracking

LIFECYCLE & SUSTAINMENT SUPPORT
- Order allocation and prioritization
- Exception management and escalation handling
- RMA processing and returns management
- Inspection, testing, grading, and refurbishment coordination

IMPORT, EXPORT & TRADE COMPLIANCE
- Customs broker and freight forwarder coordination
- Commercial invoices, export documentation, and manifests
- Records retention and compliance checkpoints
- Support for international and regulated deployments

A trusted advisor specializing in smart, secure, and scalable solutions

Why CTG National?

EXCECUTION CONFIDENCE
CTG maintains accountability and visibility of program assets from receipt through deployment—eliminating hand-offs, reducing risk, and improving delivery reliability.

COMPLIANCE BY DESIGN
Our logistics and integration operations are built to support regulated and governed environments without slowing down enterprise execution.

OPERATIONAL EFFICIENCY
Pre-deployment integration, staged rollouts, and consolidated shipping reduce site-level labor, lower total deployment costs, and accelerate enterprise programs.

SCALABILITY WITHOUT FRICTION
CTG's platform scales seamlessly—from targeted pilot deployments to large, multi-site national rollouts—without changing partners, processes, or controls.

OEM-ALIGNED DELIVERY MODEL
CTG operates as an extension of OEM delivery and integration models, supporting manufacturer requirements, specialized handling, and coordinated deployment strategies.

Designed for Business-Critical Outcomes

CTG National's secure logistics and integration capabilities strengthen our position as a trusted partner for enterprises, integrators, and OEMs operating in high-impact environments.

Whether supporting enterprise refresh cycles, large-scale infrastructure rollouts, or complex multi-location deployments, CTG delivers deployment-ready systems with the control, transparency, and execution discipline required to scale with confidence.
